

## BREEZE

Breeze is a non-extending table featuring a top made either from plate glass or ceramic to be set on a shaped-sheet-metal base. It draws inspiration from the “ellipses” of the artist Turi Simeti and is a feat of geometrics and an optical illusion in the true sense of the word: Two-dimensional elements grow in and out of each other, forming an intricate interlocking design and playing with shifting light as it bounces off their monochrome surface.
